Location
Toulouse · Aix-en-Provence, France

LANGUAGES

French
C2

Spanish
C1 — highly proficient, Peruvian heritage

English
B2+ — upper intermediate

Arabic
Basic — Tunisian heritage

SKILLS

Programming
Python, Ada (basics)

Office
Excel

Sciences
Mathematics, physics, chemistry

Soft skills
Teaching, rigour, teamwork

INTERESTS

Water polo
10 years of practice

Sports
Passionate about all disciplines

Music

Mell RIAHI

Engineering student — Computer Science · ENSEEIHT

First-year engineering student at ENSEEIHT (Digital Sciences department) after two years of French preparatory classes (PCSI / PC*). Strong scientific background, a taste for teaching through private tutoring, and team spirit built over ten years of water polo.

EDUCATION

Engineering degree (Master's level) — Digital Sciences 2026 – present
ENSEEIHT (Toulouse INP), Toulouse — 1st year

Classes préparatoires PC* (advanced track) 2025 – 2026
Lycée Dumont d'Urville, Toulon — undergraduate courses preparing for nationwide competitive entrance exams to engineering schools

Classes préparatoires PCSI (maths, physics, chemistry) 2024 – 2025
Lycée Dumont d'Urville, Toulon

French Baccalauréat — obtained with distinction 2024
Lycée Paul Cézanne, Aix-en-Provence

- Main subjects: Mathematics and Physics-Chemistry
- Obtained one year early

PROJECT

Research project (TIPE) — Transparent wood as an alternative to window glass? 2025 – 2026
PC preparatory class — theme "Cycles and loops"*

- Made transparent wood: delignification (H_2O_2) then epoxy resin impregnation
- Measured optical transmission (laser) and thermal conductivity (self-built setup)
- Result: 54% lower thermal conductivity than glass; heat-loss modelling in Python

EXPERIENCE

Private tutor Sept. 2026 – present
Complétude (tutoring company)

- Mathematics, physics and chemistry lessons
- Middle school, high school and university students

Private tutoring 2024 – present
Family setting

- Academic support for high school students in maths, physics and chemistry
